a local company deliver this type of package,” adds Brodie. “And our corporate strategy remains highly focused on in-country development. Thus, the successful commissioning of this initial project bench marks our progress and

will send out clear signals to the industry of our local capabilities.”

A few years back – in 2014 – Rigmarine officially became a part of Gaylin Holdings Limited. Gaylin Holdings Limited, a global company trusted for providing safe and innovative solutions

in lifting and rigging for the offshore and marine industry, established in 1974 in Singapore. Gaylin is one of the largest Singapore-based multi-disciplinary specialist providers of rigging and lifting solutions to the global oil and gas industry.

As part of business, Gaylin manufacture and supply a wide range of rigging and lifting equipment such as heavy lift slings and grommets, wire rope slings, crane wire, mooring equipment and related fittings and accessories. Gaylin also provide related services including load testing, spooling services, rental services and other fabrication services to our customers globally. In addition, as part of value-added customer service, Gaylin provide ship supplies such as ship stores and equipment to ships and oil rigs, which Gaylin source from third party suppliers all over the world.

Headquartered in Singapore, Gaylin has operations in Singapore, Vietnam, China, Malaysia, South Korea, UAE, Azerbaijan, Kazakhstan and Indonesia. Together, these facilities occupy an aggregate of approximately 530,000 square feet. Globally, Gaylin’s sales and distribution markets comprise mainly Asia, Oceania, Europe, the Middle East and Africa. [WRN](#)

A six-point mooring system being mobilized on long-term rental for a major marine contractor.
