

EPP[®]21
with Enhanced Chemical Finish

70 ton vertical WLL lift with a polyester roundsling?

It can be done with EPP21 from Filtec Precise!

Filtec Precise's innovative roundsling, EPP21, gives new meaning to polyester roundsling:

- Much faster fabrication times
- Increase sling efficiency up to 15% in 45+ ton (#13 and up) slings
- Higher breaking strengths
- Less overall yarn use saving weight and possible reduction in jacket widths

"We get much higher efficiency that allows us to make a smaller, lighter poly roundslings up to 75 ton WLL."

Fred Ambli
Vice President, R&D
Lift-Pro International,
Duluth, MN
