

sourced from O'Carroll stock but its familiar partner and Modulift distributor in Ireland, Irlequip, provided the modular spreader frame. The CMOD 12 was used in this instance but the range spans CMOD 6 to CMOD 110, boasting 300t capacity. They are commonly used for lifts where there are height restrictions as the height of the rig is lower than, say, a one-over-two solution.

The statues were lifted from the racecourse's parade ring, which will be transformed by the new development. A new ring will ensure that more patrons can share in the excitement and build up to races. The new Curragh will also see the creation of world-class facilities on a par with anywhere in the world. The centrepiece of the redevelopment will see the creation of a major new grandstand that will incorporate five star corporate facilities.

The construction and utilities marketplaces primarily busy the fleet of loaders plus Liebherr and Grove mobile cranes, but O'Carroll said the Curragh project epitomised the company's "anything, anytime, anywhere" ethos. "Business is picking up but diverse applications like this challenge us to remain innovative in our above and below-the-hook solutions."

### Concord Lifting and SP Combine to Lift, Weigh Record Samosa

Lifting equipment, including a custom below-the-hook rig and load cell, was integral to a successful Guinness World Record attempt by humanitarian charity Muslim Aid, which claimed the title for the largest samosa, weighing in at 153.1kg.

The attempt took place in the summer (August) at a mosque in East London, UK and official adjudicator Pravin Patel was on hand to judge the culinary feat. While the attempt presented a number of obvious challenges, Muslim Aid also had to find a solution for lifting the giant samosa for cooking and provide an accurate means of measurement.

It looked to Concord Lifting Equipment, which supplied a Genie Superlift Advantage, boasting load capacities to 454kg and lifting height to 7.49m. The manually operated material lift is compact and portable, allowing it to be rolled through the mosque doors in an upright position. The system is durable, yet requires no tooling for setup.

The Superlift combined with a custom fabricated, aluminium lifting frame that housed the samosa for lowering it into hot oil for cooking. The cooking

### POC 3500-94

3 1/2" capacity, power-operated  
Cuts 3 1/2" wire rope in 40 seconds!  
Also available in 2 1/2", 1 3/4" and 1 1/8" capacity.

**Model 1**  
3/4" capacity

**Model 1A**  
1 1/16" capacity

**POC 2500-80**  
2 1/2" capacity, power operated

**Model 2**  
1 1/2" capacity

**POC 1125-80**  
1 1/8" capacity, power-operated

**C-1750**  
1 3/4" capacity
